NEW HEALTH, LIFE SCIENCES AND DIGITAL CENTRE OPENING AUTUMN 2022

This unique opportunity enables local authorities to access the vast Place North West readership and get directly to the people who are keen to invest in their region.

With expert advice and delivery, Place North West can help authorities position themselves at the front of the pack by showcasing a variety of sites, from possibly tricky-to-shift sites to the bigger masterplans and premium opportunities.

We can also arrange for guest speakers, partners and stakeholders to be part of the tour.

Our experience, contacts and reach combine to provide a unique event experience that both helps raise profile and, crucially, puts local authorities in direct touch with prospective buyers, investors and developers.

Investment Tours

Investment tours offer local authorities the chance to showcase their sites and development opportunities to investors, developers and high-calibre property professionals.
